

What's new at Covaris?

SonoLab 8.2 has been released!

SonoLab 8.2 is compatible with the [LE220-plus](#) and [LE220R-plus](#) instrument models.

Features:

- Improves water management- Autofill functionality (Hardware also required)
- Supports automated workflows -Integration toolkit
- Enables sample tracking- Barcode scanning available
- Includes software updates- Bug fixes and improvements

Contact techsupport@covaris.com to schedule your update!

New Product Releases:

truXTRAC® FFPE Magnetic Bead Kits for automated DNA and RNA purification

- Fast and simple workflow with hands-free deparaffinization
- Ideal for small sample inputs
- Direct integration with NGS library preparation methods

Order Now

8 oneTUBE-10 AFA Strip for the ME220

This specially designed polymer:

- Produces the highest quality results with AFA-Energetics™
- Improves sample recovery by eliminating transfer steps
- Provides workflow flexibility with typical labware design

Order Now

truChIP® FFPE Chromatin Shearing Kit

- Accelerate your FFPE epigenetic workflows
- Isolate high-quality soluble chromatin from archived FFPE tissues
- Process 96 samples and beyond
- 3 times faster compared to FIT-seq and PAT-seq

Order Now

Featured Publication:

Evaluation of commercial DNA and RNA extraction methods for high-throughput sequencing of FFPE samples.

Authors: Kresse SH, Namløs HM, Lorenz S, et al.
Journal: PLoS ONE. 2018;13(5):e0197456.

Summary: Extract higher DNA yields and increase fusion gene detection with Covaris truXTRAC FFPE kits. See how truXTRAC FFPE outperformed other FFPE kits.
